BODY SUGARING

CARTRIDGE HEATER & ROLL-ON CARTRIDGES

The product is applied in the direction of hair growth and removed in the opposite direction with a depilation strip. For better results with short hair, it can be applied and removed in the opposite way, as well.

INGREDIENTS: Sucrose, Hydrolyzed Corn Starch, Aqua (Water), Citric Acid

Body Sugaring Series by **Simple Use Beauty**

introduce an **Ancient Egyptian** hair removal treatment that

has been practiced for centuries using a combination of

Sugar, Water and Lemon to remove unwanted hair from
the root **without pulling at the skin.**

This method has made it's way into the modern world

of hair removal becoming **quite popular,**

because it is by far one of the

most gentle techniques, that's

a **natural alternative** to lasers

and **lasts longer** than traditional waxing.

Sugaring is often compared to waxing but aside from removing unwanted hair,
that is where the comparison ends

PROS

LESS PAIN, no more "OUCH"!

Let's go NATURAL!

I love my DELICATE Skin!

BODY SUGARING

AFTER EPILATION LOTION

A gentle lotion to use immediately after body sugaring, to clean the skin from any depilation product residues, while at the same time soothe and hydrate the depilated area. It is safe to use on the face as well.

400ml e 14 fl.oz

INGREDIENTS: Aqua, Butylene Glycol, Polysorbate-20, Phenoxyethanol, Panthenol, Parfum, Benzoic Acid, Dehydroacetic Acid, Aloe Barbarensis Leaf Juice, Sodium Hydroxide, Potassium Sorbate, Benzyl Alcohol

BODY SUGARING

NATURAL DEPILATION

Performed similarly to waxing, the product is applied in the direction of hair growth and removed in the opposite direction with a depilation strip. For better results with short hair, it can be applied and removed in the opposite way, as well.

INGREDIENTS: Sucrose, Hydrolyzed Corn Starch, Aqua (Water), Citric Acid

e 500ml

 SUITABLE FOR USE IN MICROWAVE OVEN

Removing hair in the same direction of hair growth, which is the way Sugaring works, is less painful than extracting hair in the opposite direction of hair growth, which is what wax does. This can cause hair breakage, irritations, rashes and ingrown hair.

Sugaring gently exfoliates while improving the appearance of skin tone and texture

Body Sugaring products are 100% Natural with absolutely no chemicals or resins. They are hypoallergenic and are suitable for all skin types, including sensitive. At the same time they are environmentally-friendly covering eco-friendly consciences.

Results last up to 6 weeks and if performed regularly, can lead to permanency

Sugaring will never burn delicate skins because the products are used lukewarm and never hot, unlike wax which can both bruise and/or burn skin. Sugar does not stick to live skin cells and therefore is gentle enough to be used on the thin hairs of a woman's face and other most delicate parts.

Sugar is water-soluble, so it washes off with water if any residue is left behind

Hair only needs to be 3mm long to be sugared

BODY SUGARING

DEPILATION PASTE

Considered the traditional technique, a warmed thick mixture is applied first in the opposite direction of hair growth using the hands. It's then flicked off in the direction of hair growth.

INGREDIENTS: Sucrose, Hydrolyzed Corn Starch, Aqua (Water), Citric Acid

e 500ml

SUITABLE FOR USE IN MICROWAVE OVEN

BODY SUGARING

V CONTROL

It is used as an additive in the Depilation Paste, to regulate the viscosity of the mixture, so it can be used on a variety of skin types and hair thickness and length.

400ml e 14 fl.oz

INGREDIENTS: Hydrolyzed Corn Starch, Aqua (Water), Sucrose, Citric Acid.
